ORGANIC, FREE-RANGE CHICKEN

*Frozen chicken available year-round;
fresh chicken available seasonally*

If you have never tasted organic poultry raised on pasture, you don't know what you're missing. Our birds' incredible taste is due to the healthy environment and activity that are part of their everyday routine. Our Cornish Cross chickens have freedom to naturally forage and their diet is supplemented by soy-free organic feed, resulting in delicious and tender meat.

Chicken is sold either whole or in pieces. Fresh (not frozen) chickens are available at the farm on the day they are harvested (see dates below), or frozen chicken can be picked up or delivered all year round. Pre-order discounts are available; see order form for details.

Butchering

Chicken is sold whole or butchered into bone-in breast, thigh, leg, and wing portions to expand your recipe options without additional prep time. There is a \$3 butchering fee per chicken and you'll be provided with all of the cuts from the bird.

Packaging

Chickens are vacuum packed in a heavy plastic shrink wrap for storage up to two years to prevent freezer burn.

Pick-up dates for fresh chickens

July 25 and August 29

Please indicate your date preference(s) on the order form and what quantity you'd like on each date.

THANKSGIVING TURKEYS

Available seasonally

A true holiday centerpiece - organic turkey raised on pasture, supplemented with soy-free certified organic grain. Active birds produce wonderfully rich, flavorful meat that stays moist while roasting and makes excellent gravy!

\$50 deposit due by July 1, 2017

PASTURED PORK Available year-round

Our pigs live out on pasture and move to fresh grass regularly to help them stay clean and healthy. A pastured pig does what God intended for it to do - root, dig, and run. The result is savory, organic pork that is well-marbled and darker in color. Pork is available in fresh cuts such as roasts and chops, or as cured/charcuterie offerings like ham, bacon, and sausage. (See order form for details.)

MOTHER-SUCKLED VEAL

Available year-round

Male veal calves from our dairy herd are raised by their mothers for three to four months with 24-hour nursing access. Mother-suckled veal is humanely raised and results in meat that is wonderfully tender and richly flavored.

DAIRY Available year-round

We raise Jersey and Jersey/Holstein cross cows on pasture because they are well suited for this region and produce creamy, delicious, fresh milk. Milk and yogurt shares are available. Please email us at info@erbaverdefarms.com

ORDER FORM

ORDERING OPTIONS

- Complete and mail this form with applicable deposits to:
Erba Verde Farms, LLC
1320 Porterville Road
East Aurora, NY 14052
